Earnings (median)	\$35,116	\$39,000
Full-time Earnings (median)	\$37,347	\$43,955

All Maritime
university
Graduates

Employment Rate	86%	89%
% Working full-time	80%	76%
Job requires university education / management	58%	54%
Job related to studies / program skills used	78%	77%
Earnings (median)	\$39,000	\$41,600
Full-time Earnings (median)	\$41,600	\$45,084

Analysis is limited to Maritime university bachelor's graduates who had not completed any prior postsecondary education before enrolling in their degree (first degree holders).

Sources:

MPHEC 2014 Survey of Class of 2012 Maritime University Graduates:

The survey was conducted in the fall of 2014, two years after completion of the first degree.

MPHEC 2009 Survey of Class of 2007 Maritime University Graduates:

The survey was conducted in the fall of 2009, two years after completion of the first degree.

Definitions:

Employment Rate: Percent employed based on the number in the labour force (employed + unemployed; excludes those not looking for work)

Job requires university education/management: The job skill level variable is created from the National Occupation Classification code structure which classifies occupations according to their combination of skill level and skill type. Usually requires university education / management = skill level A + skill type 0

Job related to studies/program skills used: Graduates who reported either that their job was somewhat or closely related to their field of study and/or that they were using the skills they learned in their program to some or a great extent.

Earnings (median): Annual earnings calculated on self - reported wage information recorded on the basis of the respondent's choice (weekly, bi-weekly, monthly, annually etc.)
