

STUDENT PROGRESSION IN THE MARITIME UNIVERSITY SYSTEM

PERSISTENCE AND GRADUATION

MAY 2022

STATISTICAL TABLES AND METHODOLOGY

DEFINITIONS AND METHODOLOGY

Measure	Persistence rate
Purpose	<ul style="list-style-type: none"> Describes the educational pathways of Maritime university students at a broad level. Measures whether a student re-enrolls at a Maritime university. Assists in the understanding of student pathways, including movements between institutions.
Definitions	<p>Persistence at the university of first entry Percent of the cohort that re-enrolls at the university of first entry in subsequent years, regardless of registration status or field of study.</p> <p>Persistence at the system-level Percent of the cohort that enrolls at any Maritime university in subsequent years, regardless of registration status or field of study.</p> <p>Notes:</p> <ul style="list-style-type: none"> Persistence is measured in the fall term. The student may be enrolled full- or part-time, or on a co-op work term, and/or may have changed programs. Students who ‘stop out’ (i.e., leave their studies for a year or more but return) are counted when they re-enrol.
Measure	Graduation rate
Purpose	<ul style="list-style-type: none"> Describes the educational pathways of Maritime university students at a broad level. Measures the degree completion rate of first-time full-time students at the Maritime university system level.
Definitions	<p>Graduation rate at the university of first entry The percent of the cohort that completed an undergraduate degree at the same university within x years of first enrolling.</p> <p>Graduation rate at the system-level The percent of the cohort that completed an undergraduate degree at any Maritime university within x years of first enrolling.</p> <p>Note: The measures are cumulative.</p>
Cohort	
<p>The definition of cohort approximates the population which enters university directly from high school:</p> <ul style="list-style-type: none"> New student at a Maritime university in the fall term Aged 19 or less on December 31st in the cohort year Enrolled full-time in a program leading to a bachelor’s degree. Full-time is defined as enrolment in at least 60% of a full course load: $\text{Number of credits to be considered FT} = (\text{Total \# program credits} / \# \text{ of semesters}) \times 0.6$ <p>Note: Students can be part of more than one cohort if they meet the definition at another university in subsequent years. i.e. new at an institution in the fall term, aged 19 years or less.</p>	

Discipline Cluster

The Discipline Clusters are based on the Classification of Instructional Programs (CIP) 2016 Primary Groupings as defined by Statistics Canada: <http://www23.statcan.gc.ca/imdb/p3VD.pl?Function=getVD&TVD=394056>

The following CIP primary groupings have been combined for analysis:

- 'Humanities' and 'Social and behavioural sciences and law' and 'Visual and performing arts, and communication technologies' and 'Other' are combined into '**Humanities, arts and social sciences**'.
- 'Agriculture, natural resources and conservation', 'Physical and life sciences and technologies' and 'Mathematics, computer and information sciences' primary groupings into '**Sciences and mathematics**'.
- 'Education', 'Architecture, engineering, and related technologies' and 'Health and related fields' are combined into '**Applied and professional programs**'.

MPHEC's Longitudinal PSIS data file

The measures in this report were created using the MPHEC's Longitudinal Post-secondary Student Information System (PSIS) data file.

This file includes:

- 182,254 individual first entry, bachelor students.
- 19 cohorts (fall 2001 to fall 2019); over 8,800 students per cohort.
- At least 6 years of data for the fall 2001 to fall 2014 cohorts.
- Longitudinal information at the system-level across universities for each student including the first program and the program completed.
- Demographic information including gender, age, and student origin.

Characteristics in Cohort Year 2014

		<i>N</i>	Percent of cohort
Cohort	First-time, full-time student	9,277	100.0%
Gender ^a	Female	5,665	61.1%
	Male	3,606	38.9%
Region/Province of Origin	New Brunswick	2,288	24.7%
	Nova Scotia	3,446	37.1%
	Prince Edward Island	582	6.3%
	Maritimes subtotal	6,316	68.1%
	Newfoundland and Labrador	73	0.8%
	Quebec	69	0.7%
	Ontario	1,395	15.0%
	Manitoba	27	0.3%
	Saskatchewan	14	0.2%
	Alberta	282	3.0%
	British Columbia	169	1.8%
	Northwest Territories	13	0.1%
	Canadian outside Canada or unknown	126	1.4%
	Canadian, outside Maritimes subtotal	2,168	23.4%
	International subtotal	793	8.5%
Discipline cluster in cohort year	Humanities, arts, and social sciences	3,427	36.9%
	Sciences and mathematics	2,436	26.3%
	Applied and professional programs	1,961	21.1%
	Business, management and public administration	1,453	15.7%

Note: percentages may not sum to 100% due to rounding.

^a Excludes gender 'not reported'.

Status of the fall 2014 cohort over seven years

System-level and within-institution status (in the fall term). All Maritime universities combined.

n = 9277	No degree, still enrolled (Persistence)		Completed degree (Graduation)		No degree, not enrolled	
	At university of first entry	System-level	At university of first entry	System-level	At university of first entry	System-level
Cohort year	100%	100%	0%	0%	0%	0%
After 1 year	80%	83%	0%	0%	20%	17%
After 2 years	69%	73%	0%	0%	31%	26%
After 3 years	64%	69%	3%	3%	34%	29%
After 4 years	26%	30%	38%	39%	35%	31%
After 5 years	7%	9%	57%	59%	36%	31%
After 6 years	4%	5%	61%	65%	35%	30%

Student progression of the fall 2014 cohort over seven years

Persistence after one and two years. All Maritime universities combined.
