Table 6: Total Enrolment by Province, Major Field of Study, and Level of Study

Notes

- The Maritime participation rate is calculated as the number of provincial residents enrolled full-time in any Maritime university divided by the provincial population aged 18-24 years.
- 2. Statistics Canada CANSIM table 520005; medium growth scenario.
- 3. New major field of study categories, based on the Classification of Instructional Program (CIP) Canada 2011 primary groupings, are used in all MPHEC publications starting in September 2014 and they may not be comparable to previous years. For more information on the CIP 2011 Primary Groupings please visit Statistics Canada's website

Additional Resources

Ten standard tables and two Microsoft Excel databases, with a breakdown by university and other variables, are available for download at:

http://www.mphec.ca/research/maritimeuniversitystatistics/enrolment.aspx

University enrolment is calculated from data in the MPHEC postsecondary student information system (PSIS), which contains detailed information on demographics, programs and courses for all students enrolled in 15 publicly-funded Maritime universities.

The Commission monitors participation rates in Maritime universities. Statistical tables are available for download at: http://www.mphec.ca/research/Participation.aspx
