

TRENDS IN MARITIME HIGHER EDUCATION

Volume 18 Number 1

-Annual Digest-

January 2021

UNIVERSITY ENROLMENT 2019 - 2020

In 2019-2020, **70,011** students were enrolled in Maritime universities, up 3.9% over one year and 2.2% over 10 years. 84.5% of students were enrolled at the undergraduate level, while 15.5% were enrolled at the graduate level. Both undergraduate (+3.6%) and graduate (+5.7%) enrolments increased over one year. International students continued to be the primary source of enrolment growth in the region, increasing by 2,715 students, or +20.5%, over the previous year (+141.5% over 10 years). International students accounted for 22.8% of total enrolment in 2019-2020. Programs in *Mathematics, computer and information sciences* (51.5%), *Architecture, engineering and related technologies* (41.4%), and *Business, management, and public administration* (37.8%) had the highest percentage of international students. Top countries of origin for international students were China (4,352), India (4,100) and the United States (664). The number of students from India increased by 713.5% over the past 5 years.

New Brunswick enrolment increased by 1.9% to **18,874** students over one year after a 9-year downward trend (-15.1% over 10 years). Enrolment of NB residents increased by 1.7%, while the number of students from other Maritime provinces decreased by 3.8%. There were 1.0% fewer Canadian students from outside the Maritimes. International enrolment increased by 10% over one year.

Nova Scotia enrolment increased by 4.6% to **46,383** students over one year (+10.3% over 10 years). Enrolment declined for home province residents (-0.8%), students from other Maritime provinces (-0.4%), and Canadian students from outside the Maritimes (-0.7%). These declines were offset by increasing enrolment of international students, which was up 23.2% from the previous year.

Prince Edward Island enrolment increased by 6.3% to **4,754** students over one year (+12.3% over 10 years). Enrolment of PEI residents increased by 2.4%, while the number of students from other Maritime provinces decreased by 3.7%. There were 8.1% more Canadian students from outside the Maritimes. International enrolment increased by 19.2% compared to the previous year.

University participation of Maritimers in the Maritimes has been steadily decreasing over the past decade, reaching 21.8% in 2019-2020 (-0.4 percentage point [pp] over one year and -1.7 pp over 10 years). The home province participation rate increased by 0.1 pp in NB, while it decreased by 0.5 pp in NS and 0.8 pp in PEI over one year (-1.5 pp, -1.3 pp and -5.2 pp in NB, NS and PEI over 10 years, respectively).

Table 12: Full-time Enrolment by Province, Institution, and Age Group

How to read the tables

Enrolment statistics are reported at the provincial and Maritime level for the 2019-2020 fall term. The percent change over one, five and ten years (change since 2018-2019, 2014-2015 and 2009-2010, respectively) is provided to illustrate major trends. *Percent change is not reported for cells with small *n*. Below each summary table is the title of a corresponding table on the MPHEC website with a breakdown by university and other variables available at: <http://www.mphec.ca/research/maritimeuniversitystatistics/enrolment.aspx>

University enrolment is calculated from data in the MPHEC Post-secondary Student Information System (PSIS), which contains detailed information on demographics, programs and courses for all students enrolled in 15 publicly-funded Maritime universities.
