## TABLE 1: HOME PROVINCE PARTICIPATION

*Number of students enrolled full-time in their home province  
divided by the provincial population aged 18-24.*

This measure of university participation provides insight on the extent to which a province's typical university-aged population accesses university education within the province. The participation rate is the number of provincial residents who were enrolled full-time at a university in the province divided by the province's population of 18-to-24-year-olds.

	New Brunswick			Nova Scotia			Prince Edward Island		
	Full-time Home Province Enrolment	Population 18-24 Years Old	Home Province Participation Rate	Full-time Home Province Enrolment	Population 18-24 Years Old	Home Province Participation Rate	Full-time Home Province Enrolment	Population 18-24 Years Old	Home Province Participation Rate

## TABLE 2: MARITIME PARTICIPATION OF RESIDENTS

*Number of provincial residents enrolled full-time in any Maritime university  
divided by the provincial population aged 18-24.*

This measure of university participation provides insight on the extent to which a province's typical university-aged population accesses university education within the Maritime region. The participation rate is the number of provincial residents who were enrolled full-time at any university in the Maritime provinces divided by the province's population of 18-to-24-year-olds.

	New Brunswick Residents			Nova Scotia Residents			Prince Edward Island Residents		
	Full-time Enrolment of Residents in Maritime Universities	Population 18-24 Years Old	Maritime Participation Rate of Residents	Full-time Enrolment of Residents in Maritime Universities	Population 18-24 Years Old	Maritime Participation Rate of Residents	Full-time Enrolment of Residents in Maritime Universities	Population 18-24 Years Old	Maritime Participation Rate of Residents

## TABLE 3: NATIONAL PARTICIPATION OF MARITIMERS

*Number of provincial residents enrolled full-time in a Canadian university  
divided by the provincial population aged 18-24.*

This measure of university participation provides insight on the extent to which a province's typical university-aged population accesses university education within Canada. It provides a more complete index of a province's residents' access to university education, as it eliminates the restrictions imposed by the options in the home province or region. The participation rate is the number of provincial residents who were enrolled full-time at any university in Canada divided by the province's population of 18-to-24-year-olds.

	New Brunswick Residents			Nova Scotia Residents			Prince Edward Island Residents			Canadian Residents		
	Full-time Enrolment of Residents in Canadian Universities	Population 18-24 Years Old	National Participation Rate of Residents	Full-time Enrolment of Residents in Canadian Universities	Population 18-24 Years Old	National Participation Rate of Residents	Full-time Enrolment of Residents in Canadian Universities	Population 18-24 Years Old	National Participation Rate of Residents	Full-time Enrolment of Residents in Canadian Universities	Population 18-24 Years Old	National Participation Rate of Residents
2006-2007	18,009	67,381	26.7%	24,750	86,746	28.5%	4,227	13,106	32.3%	729,558	3,118,564	23.4%

## TABLE 4: HOME PROVINCE PARTICIPATION OF 18-24-YEAR-OLDS

*Number of students aged 18-24 enrolled full-time in their home province  
divided by the provincial population aged 18-24.*

This measure of university participation provides insight on the extent to which a province's typical university-aged population accesses university education within the province. The participation rate shows the number of provincial residents aged 18-to-24 who were enrolled full-time at a university in the province divided by the province's population of 18-to-24-year-olds. This measure is similar to the one provided in Table 1.

	New Brunswick			Nova Scotia			Prince Edward Island

## TABLE 5: HOME PROVINCE PARTICIPATION OF 18-24-YEAR-OLDS BY GENDER

*Number of students aged 18-24 enrolled full-time in their home province  
divided by the provincial population aged 18-24, by gender.*

This measure of university participation is the Home Province 18-24 Participation Rate (Table 4), with an additional breakdown by gender. Like Table 4, it provides insight on the extent to which a province's typical university-aged population accesses university education within the province. The participation rate shows the number of provincial residents aged 18-to-24 of a particular gender identity, who were enrolled full-time at a university in the province divided by the province's population of 18-to-24-year-olds of that gender identity.

## TABLE 6: HOME PROVINCE PARTICIPATION BY AGE COHORT

*Number of students aged  $n$  years enrolled full-time in their home province divided by the provincial population aged  $n$  years.*

This measure of university participation provides insight on the extent to which a province's typical university-aged population accesses university education within the province, with a specific breakdown by individual age cohorts. The participation rate is the number of provincial residents, of a particular age, who were enrolled full-time at a university in the province divided by the province's population of individuals of that same age.

## TABLE 6: HOME PROVINCE PARTICIPATION BY AGE COHORT (CONTINUED)

*Number of students aged n years enrolled full-time in their home province  
divided by the provincial population aged n years.*

This measure of university participation provides insight on the extent to which a province's typical university-aged population accesses university education within the province, with a specific breakdown by individual age cohorts. The participation rate is the number of provincial residents, of a particular age, who were enrolled full-time at a university in the province divided by the province's population of individuals of that same age.

## TABLE 7: DIRECT ENTRY RATE OF RESIDENT HIGH SCHOOL STUDENTS

*Number of first-year direct entry (determined by proxy: age ≤ 18 years as of Dec. 31st) full-time students in year n divided by the number of high school graduates aged 18 or less in year n-1.*

This measure of university participation provides insight on the extent to which a province's recent high school graduate population accesses university education within the province. Recent high school graduates are a traditional source of new recruitment for universities. The participation rate is the number of provincial residents aged 18-years-old or less (a proxy for recent high school graduation) who were enrolled full-time at a university in the province divided by the province's population of high school graduates aged 18-years-old or less.

	New Brunswick			Nova Scotia			Prince Edward Island

## TABLE 8: OVERALL PARTICIPATION

*Number of students enrolled full-time in a province divided by the provincial population aged 18-24.*

This measure of university participation provides insight on the extent to which people, regardless of age or geographic origin, access university education within a province (and the country). The participation rate is the number of people who were enrolled full-time at a university in the province divided by the province's population of 18-to-24-year-olds. Despite the denominator of the rate being the province's typical university-aged population, this is not an accurate measure of the extent to which a province's universities are accessed by its own population, and should therefore be used with caution.

## TABLE 9: HOME PROVINCE FULL- AND PART-TIME PARTICIPATION

*Number of students enrolled full- or part-time in their home province  
divided by the provincial population aged 18-24.*

This measure of university participation provides insight on the extent to which a province's typical university-aged population accesses university education within the province, regardless of registration status. It therefore widens the scope of the measure given in Table 1. The participation rate is the number of provincial residents who were enrolled either full-time or part-time at a university in the province divided by the province's population of 18-to-24-year-olds.

	New Brunswick			Nova Scotia			Prince Edward Island

## TABLE 10: MARITIME FULL- AND PART-TIME PARTICIPATION OF RESIDENTS

*Number of provincial residents enrolled full- or part-time in a Maritime university divided by the provincial population aged 18-24.*

This measure of university participation provides insight on the extent to which a province's typical university-aged population accesses university education within the Maritime region, regardless of registration status. It therefore widens the scope of the measure given in Table 2. The participation rate is the number of provincial residents who were enrolled either full-time or part-time at any university in the Maritime provinces divided by the province's population of 18-to-24-year-olds.

	New Brunswick Residents			Nova Scotia Residents			Prince Edward Island Residents		
	Full-time and Part-time Enrolment of Residents in Maritime Universities	Population 18-24 Years Old	Maritime Full-time and Part-time Participation Rate of Residents	Full-time and Part-time Enrolment of Residents in Maritime Universities	Population 18-24 Years Old	Maritime Full-time and Part-time Participation Rate of Residents	Full-time and Part-time Enrolment of Residents in Maritime Universities	Population 18-24 Years Old	Maritime Full-time and Part-time Participation Rate of Residents
1996-1997	20,415	76,813	26.6%	28,908	90,197	32.0%	3,387	13,520	25.1%

## TABLE 11: OVERALL FULL- AND PART-TIME PARTICIPATION

*Number of students enrolled full- or part-time  
divided by the provincial population aged 18-24.*

This measure of university participation provides insight on the extent to which people, regardless of age, geographic origin, or registration status, accesses university education within a province (and the country). It therefore widens the scope of the measure given in Table 8 and is our most generous measure of university participation. The participation rate is the number of people who were enrolled either full-time or part-time at a university in the province divided by the province's population of 18-to-24-year-olds. Despite the denominator of the rate being the province's typical university-aged population, this is not an accurate measure of the extent to which a province's universities are accessed by its own population, and should therefore be used with caution.

## TABLE 12: HOME PROVINCE PARTICIPATION OF 18-19-YEAR-OLDS

*Number of 18-19 year-old students enrolled full-time in their home province  
divided by the provincial population aged 18-19.*

This measure of university participation provides insight on the extent to which a province's 18-to-19-year-old population accesses university education within the province. The 18-to-19-year-old population are a traditional source of new recruitment for universities. The participation rate is the number of provincial residents aged 18-to-19 who were enrolled full-time at a university in the province divided by the province's population of 18-to-19-year-olds.

	New Brunswick			Nova Scotia			Prince Edward Island		
	Full-time 18-19-year-old Home Province Enrolment	Population 18-19 Years Old	Home Province 18-19-year-old Participation Rate	Full-time 18-19-year-old Home Province Enrolment	Population 18-19 Years Old	Home Province 18-19-year-old Participation Rate	Full-time 18-19-year-old Home Province Enrolment	Population 18-19 Years Old	Home Province 18-19-year-old Participation Rate

## TABLE 13: MARITIME PARTICIPATION OF 18-19-YEAR-OLD RESIDENTS

*Number of 18-19 year-old provincial residents enrolled full-time in a Maritime university  
divided by the provincial population aged 18-19.*

This measure of university participation provides insight on the extent to which a province's 18-to-19-year-old population accesses university education within the Maritime region. The 18-to-19-year-old population are a traditional source of new recruitment for universities. The participation rate is the number of provincial residents aged 18-to-19 who were enrolled full-time at any university in the Maritime provinces divided by the province's population of 18-to-19-year-olds.

	New Brunswick Residents			Nova Scotia Residents			Prince Edward Island Residents		
	Full-time Enrolment of 18-19-year-old Residents in Maritime Universities	Population 18-19 Years Old	Maritime Participation Rate of 18-19-year-old Residents	Full-time Enrolment of 18-19-year-old Residents in Maritime Universities	Population 18-19 Years Old	Maritime Participation Rate of 18-19-year-old Residents	Full-time Enrolment of 18-19-year-old Residents in Maritime Universities	Population 18-19 Years Old	Maritime Participation Rate of 18-19-year-old Residents
