Source: Postsecondary Student Information System (PSIS)

1 - Fall term enrolments are reported.

2 - Includes community college level students. Students enrolled in programs below the post-secondary level are excluded.

3 - The student's province of residence declared upon admission (as indicated by PSIS element SD 4370) and the province of study are the same. Only Canadian citizens and permanent residents are included. Please note that in previous years, international students with an address in a Maritime province at the time of admission were not excluded, and therefore summary enrolments in the present report may not be fully comparable with the previous years.

4 - The student's province of residence declared upon admission (as indicated by PSIS element SD 4370) and the province of study are different. Only Canadian citizens and permanent residents are included.

5 - Includes undergraduate and graduate certificates and diplomas

6 - Prince Edward Island did not introduce a doctoral program until 1999. PEI trends not reported because the sample size is small.
